

# AVENTA DIGITAL WALLET

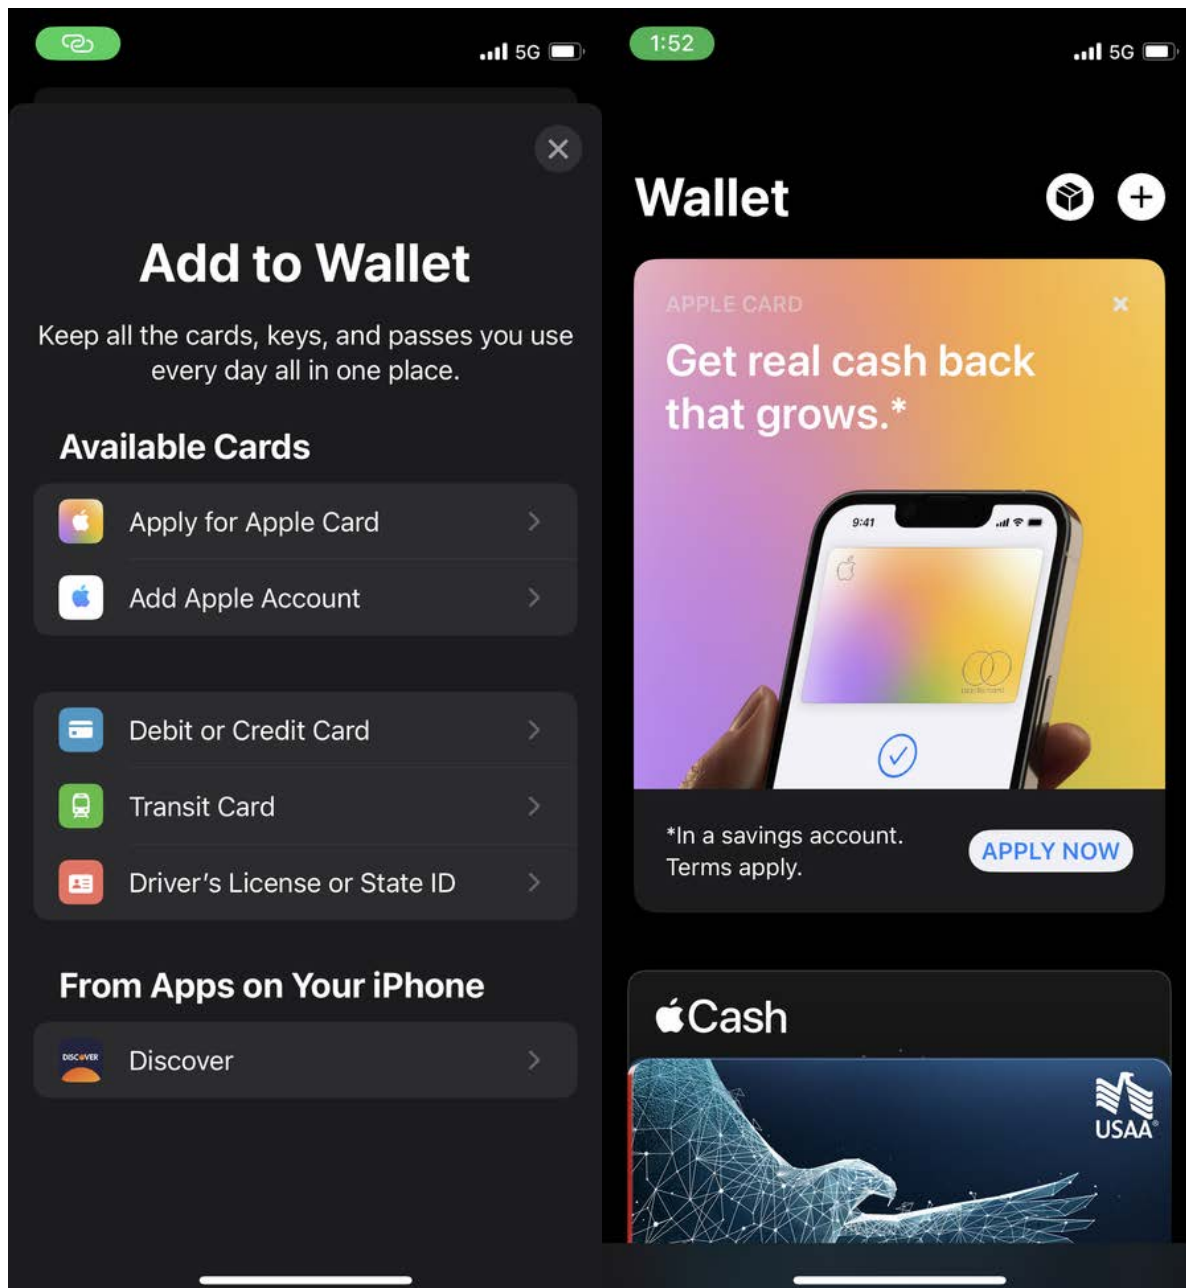

Setting up Apple Pay®

# Launch the Apple Wallet® app on your iPhone.

Click on the “+” sign usually found at the top-right corner of the screen.

Follow the prompts to scan your Aventa credit or debit card using your device's camera or enter it manually.

The screenshot shows a mobile app interface for adding a card. At the top, the status bar shows the time 1:53, 5G signal, and battery level. The app has a dark theme. A navigation bar at the top contains a blue '< Back' button and a grey 'Next' button. The main heading is 'Card Details' in white. Below it is the instruction 'Verify and complete your card information.' There are two input fields: 'Name' with the text 'Aventa' and a clear button (x), and 'Card Number'. A standard QWERTY keyboard is displayed at the bottom of the screen.

Enter the necessary verification information and your card will be added to Apple Pay®.

You might need to verify your card via text, phone, or email.

Once your Aventa credit or debit card is verified, you can use it for payments.
